To Whome it May Concern,

My name is I/M Andre M. Owens, and I am writing you to verify that I witnessed I/M Emmanuel Redden, lacerate his knee on the corner of Bunk 37 on B-Tier, Medium Bldg. In the latter days of July.

After the initial injury I/M Redden's whole leg began to fill with puss, and swell I/M Owens had to assist Mr Redden in getting out of his bed.

Upon informing SGT Hastings of the situation Mrs. Redden was informed of the Sick Call procedure, and was called to the infirmary several days later by officer Walker, after going to the gate to have his problem medically addressed I/M Redden was informed that he took to long responding, and refused medical attention for a 3rd day.

All accounts described are of truth and accuracy.

Respectfully Submitted

Andre M. Owens
